SWANZ ONE-TOUCH STRAW DETAILS

Swanz芯動彈跳杯吸管詳細資訊

Top straw
頂部吸口

Straw plug 矽膠塞

Straw easy-clean silicone
吸管膠圈

**Straw extension**
吸管
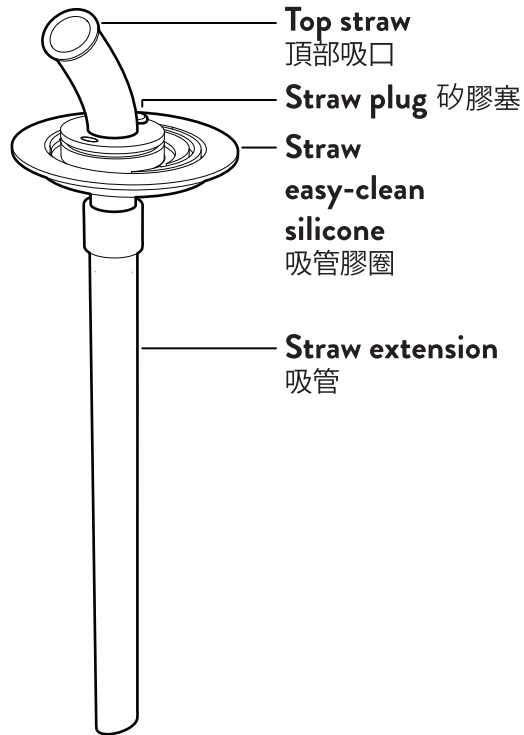

ATTACHING STRAW ON CAP 如何組裝吸管與彈跳蓋:

*please remove the regular easy-clean silicone 請先移除彈跳蓋的矽膠圈

Straw Position

1. Insert the **top straw** onto **straw easy-clean silicone** from the bottom
將頂部吸管從底部插入清潔吸管矽膠圈上

2. Attach it to the **cap** from the bottom. Press it to make sure it is attached securely
從底部將其安裝到蓋子上。按下以確保牢固連接

3. Attach the **straw plug** onto the hole located behind the **top straw**
連接下吸管塞插入頂部吸管後面的孔中

4. Attach **straw extension**
連接下方吸管

5. The straw is ready to be use
完成組裝

NOTES 備注:

- [Refer to image 1] Push up the straw plug when drinking from the straw to prevent vacuum
- [Refer to image 2] Plug in the straw plug back when you are not drinking to prevent spillage
- Do not use for hot liquid. Pressure built by the heat might cause hot liquid to shoot out from the straw, and cause leakage.
- Please do not invert the thermal flask when straw is attached. With straw, the thermal flask is spill-proof, not leak-proof.

- [參見第一圖象]從吸管喝水時, 向上推吸管塞以防止真空。
- [參見第一二圖象]不喝水時將吸管塞插回去, 以防止溢出。
- 請勿在使用吸管時盛裝熱飲, 由熱量產生的壓力可能導致熱液體從吸管中浸出導致洩漏。
- 使用吸管時, 請勿翻轉保溫瓶。用吸管的保溫瓶只防止傾斜溢出, 並非完全防漏。
